Printables

Printables

This is a selection of what I though best represented my tenures in strength and design. Some are hand-illustrated and some straight digital. I have a lot of fun using analog and technological methods to execute an idea. I think of each design as a puzzle and these are the solutions.

OVERVIEW		
LOGAN	Logan Black/White 71070001	Logan Black/Flame Orange 71070001
STRATFORD	Stratford Black/Magnet Grey 71070002	Stratford Magnet Grey/Wine Red 71070002
BRIGHTON	Brighton Black/Magnet Grey 71070003	Brighton Magnet Grey/Wine Red 71070003
ON HI	Brighton High Black/Black 71070005	Brighton High Asphalt Grey/Sky Grey 71070005

Technical / Platform Media

Technical

These are examples of the back-end of digital asset creation. I normally tech-pack my designs and prefer to see my ideas through from concept to finalized project. I have a tight handle on all things printed or digitally published. From tee shirt design and their tech packs to animated banners.

I have also been responsible for all pre-press and printer specs along with being accountable for signing off on all proofs and production

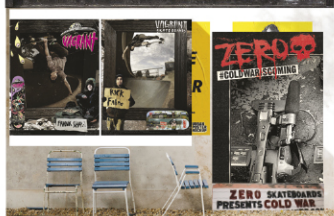

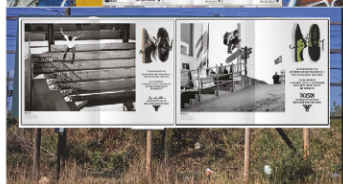

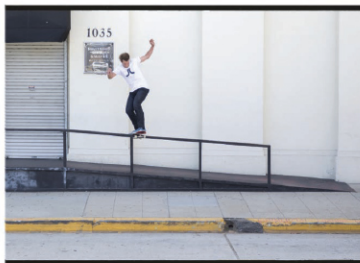

Marketing & Campaigns

Marketing & Campaigns

Here are examples of the different media I produced art within. Be it print, digital or multi-media. I was on it. Most of the below is from my tenure at Black Box Dist.

ARTO SAARI

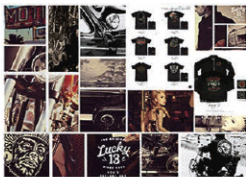

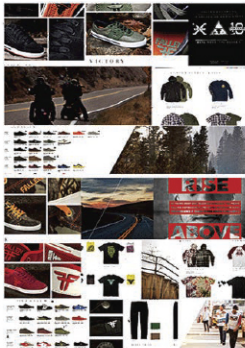

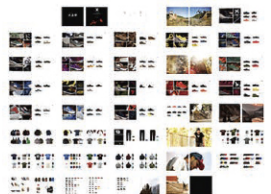

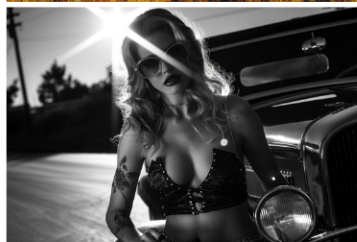

Catalogs

Catalogs

A pretty straight-forward entry here. Just clean, nicely executed catalogs across many brands.

Production Art / Photoshop

Production Art / Photoshop

A few examples of Photoshoppery. Making people disappear and turning shoe production images into accurate representations. I've also done many photoshoots/Photoshops of ads and person-centric images.
